We all know that writing can be difficult, sometime you just need that little bit of extra peer pressure. So we've book two rooms, one for quiet study and one for gentle discussion. In the quiet room, just shut up and write. In the discussion room, take your time, have a coffee, a bite to eat and ask questions of your peers.

The discussion space is ideal for splitting off into teams to help each other write.

There will be free coffee and tea as well as some snacks for everyone to get their faces into.

You're free to stay for as little or as long as you want.

Just come and write!
